EDUCATION

G.L. Bajaj Institute of Technology and Management , B.Tech in ELECTRICAL AND ELECTRONICS ENGINEERING

Aug 2019 – May 2023

- GPA: 7.5/10

WORK EXPERIENCE

Full Stack developer, Sparix Global – Noida, India

Nov 2025 – Present

- Built end-to-end responsive, high-performance **UI interfaces in ReactJS**, translating Figma wireframes, UX flows, and prototypes into production-ready screens while developing reusable UI **components, design systems, and accessible (WCAG-compliant) layouts**.
- Designed and delivered data-rich dashboards and interaction flows for **AI-driven systems**, integrating **REST APIs, JSON data pipelines** and **AWS services** to ensure seamless **real-time updates, cross-browser compatibility**, and a cohesive user experience across devices.

Backend Engineer, The Return Journey – Pune , India

Jan 2024 – Nov 2025

- Hotel Booking System using NestJS, integrating real-time availability checks and secure payment processing for seamless reservations. Implemented a **cron-based strategy** to automatically handle pending or failed payments, ensuring transactional reliability and improved user experience.
- Optimized application performance and user experience through **efficient caching mechanisms, database indexing, and connection pooling**, significantly improving system scalability, responsiveness, and overall customer satisfaction.

Software Engineer, Tekniko Global – Noida, India

June 2023 – Dec 2023

- Developed a Service Marketplace Platform using **Express js** that connects service providers with customers, similar to **Urban Company**.
- Designed and implemented backend services to support **user authentication, service listings** and **product search service**.
- Integrated **payment gateways** for secure transactions and implemented notification systems to keep users informed about booking statuses.

PROJECTS

NeuroSpeak

- It is an **AI-powered Speech-to-Text system** that converts spoken input into text and leverages the **Gemini model** to intelligently interpret user intent and generate context-aware responses in real time.
- Tools Used: **React Js, Nest Js, Gemini API, WebSocket**.

ACHIEVEMENTS AND PROFILE LINKS

- Elevated status by being chosen for the Startup Founder & Orientation in NISP by GLBITM.
- 150+ problems on LeetCode : **LeetCode**

TECHNICAL AND NON TECHNICAL SKILL

Languages: JavaScript, TypeScript, Python

Frameworks: Node Js, Express.Js, Loopback4, Nest Js, React Js

Database: MongoDB, Postgres Db

Tools Technologies: Redis, Kafka, Git, Aws, Junit, CI/CD
